DONORSHIPS and GRANTS

*That Acquire Bronze Original Replica Plaque Sets of
The United States Constitution and Bill of Rights
for Placement in America's Schools*

"What's great about having these documents in our main hall is that everybody who walks through the hall, this will be community members and other patrons, as well as the parents of our students will get to see these documents each and every day. So in a way they are going to be resources that they'll be able to access at any point and teachers will be able to bring students down when they have questions about the Constitution or the Bill of Rights and they will actually be able to touch these documents."

Art Raymond, Principal, Moody Middle School, Richmond, VA

President Ronald Reagan's vision

was to place these bronze plaque replicas in schools across America. With your charitable contributions we can achieve that goal and bring these foundations of American history and an educational component to our students and their communities.
